Thumbnails not showing

Posted by Space Interior - 2014/02/10 18:54

_____

Hello
I have difficulties getting the thumnails working. If I disable thumbs to use original pictues everything works. But not when I activate thumbs.
Lightbox is not working either but image is opened in the same window on clicking so path is correct.

_____

Hello,

About problem with thumbnails, check that /cache/ folder has writable and readable permissions.

About problem with lightbox, this problem with jquery easy plugin. It try to load jQuery library, but uses an incorrect URL.

Regards,
ARI Soft

_____

Hello and thank you for your reply.
I have tried changing settings for /cache directiry as 775 and 777. Not working.

Also I disabled jquery plugin but lightbox not working

_____

Thumbnails from "cache" can't be loaded, 403 error occurs. Check .htaccess file.

Regards,
ARI Soft

_____

Solved!
.htacess modified to solve thumbs and Rokbox 2 plugin needs to be set to backwards compatible mode for lightbox to work.

Thank you very much for your service!
