
Carousel overlays submenu

Posted by capitalgroup - 2014/11/21 23:32

Hello. I'm struggling with problem that submenu is being overlayed by ARI Carousel. Here is the link for my site:

<http://capitalgroup.hekko24.pl/joomla/stronaglowna>

When you hover on "OFERTA" menu there is a submenu which is being overlayed. How may I fix this problem?

Best Regards

Hello,

The page is not available. 404 error occurs.

Regards,
ARI Soft

This problem with "z-index" CSS property in menu extension. You can contact menu extension developers and ask them to fix this problem.
