
Problem with description

Posted by eve - 2011/05/24 11:44

Hi,

I've problem with pic description in Your gallery.
I don't know, how to do this.

I found file:

```
bread.jpg="Bread"
```

```
bread.jpg="This is a bread"  
coffee.jpg="A cup of coffee"
```

```
coffee.jpg="http://www.google.com"
```

but when I try edit it - nothing happen.

For ex. in this gallery I've picture 1.jpg, 2.jpg, 3.jpg ect.
Hot to change this code?

Or maybe it's problem becouse I'm using joomla lightbox?

Hello,

Place INI file to folder with images.

Regards,
ARI Soft

Thank You. Now I understand :)

Title works well, but description still not working :(

"DESCRIPTION" section is used when the module is integrated with lightbox and it is shown into lightbox.
