
Limit number of photos to show ?

Posted by Zouk ! - 2011/06/01 15:40

Hello There,

First I want to thank you for all your wonderful extensions, you from far, my favored extension creator !
Thank you for your work :-)

Then, the question, I really love ARI slick gallery but the way I would like to use it give me some headaches.
I would like to limit the number of photo to show (like ARI image slider).
I configured it to scan all my galleries and show random samples in home page.

Could you give me way to allow this ? (what files/script to modify to artificially limit the number of photo randomly picked up ?)

Or even better, could you implement it as soon as possible ? It will really make my life easier (relatively ;-) lol)

Anyway and again, thank you for work,
Hope to get some answers :-)

Best Regards,
Zouk !

Hello,

We have updated the module. New version contains "Number of images" parameter.

Regards,
ARI Soft

Wow,

I'm really impressed by your speed and your kindness to implement this feature, what to say except a BIG THANK YOU !
Really, now I'm so satisfied and I will consider for sure, and before others, your extensions when I will have to buy one.

Again and again, Thank you ! :woohoo:

Best Regards,
Zouk !
