
Thumbs problem

Posted by moraldi - 2011/07/04 11:14

Hi,
Although works in localhost like a charm, in a real website, the ARI Slick Gallery is not displaying the thumbs correctly when the 'Use thumbnails' is set to 'yes'. It displays only a polaroid transparent frame.

(Joomla! release 1.6)

Thanks in advance <http://www.ari-soft.com/images/fbfiles/images/Ari.jpg>
