Hello,
I am on joomla 1.6.6

How do you make pictures from Ari Slick box to open in a nice small window _blank ?

Simply a _blank page from 640 max sze and use, for example Ari sexy lightbox

how do you do to join the 2 extension?

Thank you

Hello,

Install "ARI Sexy Lightbox" module then install, configure and enable "System - ARI Sexy Lightbox" plugin. After this set "Lightbox integration" parameter to "ARI Sexy Lightbox" in "ARI Slick Gallery" module settings.

PS: One note "ARI Sexy Lightbox" is commercial product.
