
is it possible to create a 'cool wall' ?

Posted by zombies - 2012/02/24 12:45

I like the gallery and would like to know if it is possible to create a 'cool wall' style gallery with this like they have on top gear

for instance

on the gallery page (where the module is active)

at the top of the module you could have 3 headers/columns and each member could move an image under that header/column and they would stay there until someone else moves it
might be difficult if there are more than one member online at a time

is it possible?

Hello,

Sorry, but the extension doesn't support described ability.

Regards,
ARI Soft

thanks for the quick reply

any chance of you create one?

We don't have such plans in the near future.
