
ARI Sexy Lightbox plugin isn't installed

Posted by alvabot - 2010/09/11 09:37

The module does not work with ARI Sexy Lightbox. Text appears: "ARI Slick Gallery:" System - ARI Sexy Lightbox "plugin isn't installed.", although the plugin is installed and enabled. (((
(version of ARI Sexy Lightbox - 1.9.2)

From Rock Box and Core Joomla module works fine.

Hello,

The module works with ARI Sexy Lightbox extension, but you mean another extension and the module doesn't work with it.
