Hover area size

Posted by pedropcosta - 2011/04/09 22:57

_____

Hello!

First of all, congratulations on your work with this extension.

I am trying to customize one thing on the slider. I would like for the navigation arrows to show only when the mouse approaches the arrows region, instead of showing when the mouse hovers any place on the image. Is it even possible?

Thanks in advance.

_____

Hello,

The extension doesn't support this ability, this feature requires custom coding.

Regards,
ARI Soft

Thank you very much for your answer.

Have a nice day!
