
Timer on mouse over image

Posted by glr - 2011/04/29 20:00

Hello! First of all thanks very much because this module is very nice!

I would set the timer to display when mouse is over the module, like arrows do. Is there a way to do it?
And if that can be done, change the position of timer to the center (x and y axis) of the image slider.
Thanks in advance.

Best regards.

Hello,

It requires custom modification of the module that it shows timer on mouse over.

Regards,
ARI Soft
