hi there,

ARI flip book loading all articles in one page. I believe it's some kind of conflict with Gantry. I'm using Jommla 1,6 and the site is [www.vardaris.com.cy](http://www.vardaris.com.cy) in Menu button. Please advise!!!!

Hello,

Could you specify what browser you use and provide temporary access to your Joomla! backend by email that we can investigate the problem?

Regards,  
ARI Soft
