# Only Show Part of 1st page

Posted by Salvatore.Nestor - 2011/06/21 19:30

_____

I just purchased your ARI FlipBook product and just installed it and am having a few issues.

Setup:
Joomla 1.6.3
Artisteer 3.0.1 Template Generator

1st:
   I am showing an article based on a category. The selection works properly but when the article is display in the flipbook, it extends below the bottom of the frame of the flipbook on page 1 and does not paginate into multiple pages. Am I supposed to do this or am I missing something?

2nd:
   The text shown is black but the background is a gold color. Where is the background color set for the flipbook.

Hoping that this is a simple fix,
Salvatore http://www.ari-soft.com/images/fbfiles/images/Flipbook_Issue_1_and_2.jpg

_____

Issue 2 was caused by me turning on the Cover Feature. This is no longer an issue, but can the cover color be changed?

Salvatore

_____

Hello,

The extension doesn't split one article into several pages, it shows one article on one page.

Regards,
ARI Soft

_____

Thank you for the quick answer. You verified what I thought.

Last question:
   I am not seeing a vertical line between say page 1 and page 2. Is this possible? I tested with latest versions of Chrome, IE, FireFox and Safari but I don't see it with any of them.

Thank You
Salvatore http://www.ari-soft.com/images/fbfiles/images/No_Divider_Line.jpg

_____

Hello,

I found the following fix below in another post. Exactly which CSS file does this get added to and where in the file does it get placed?

Thanks,
Salvatore

" This problem with site template styles. Add the next CSS rule to site template CSS file that fix the problem:

Code:

-------------------------------------------------------
.ari-flip-book P
{
 margin: 0;
}

-------------------------------------------------------
"

_____

The code can be added to "CSS styles" parameter in module settings or to any site template CSS file.

Regards,
ARI Soft

_____

Hello,

   I've tried putting that code in both the template.css file and directly into the module in the CSS style box but I don't get a dividing vertical line. What's next to try?

Salvatore

_____

Hello,

The URL is http://info.inthecloudtek.com/index.php/virtua-advise

I see a slight color difference but no vertical dividing line.

Salvatore

_____

Add the next CSS rule:

.booklet .b-wrap-right
{
 border-left: 1px solid gray;
}

Regards,
ARI Soft
