
\Article\ setup not preserved on save

Posted by carebear1 - 2011/08/21 05:53

Hi Team,

I just purchased and installed the module and plugins on a local instance of Joomla!. Whenever I enter the module setup, and make any changes to the 'Articles' section, those changes are not preserved when 'Save' is selected.

Please advise what may be the cause here.

Thanks. http://www.ari-soft.com/images/fbfiles/images/articles_section.png

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

Regards,
ARI Soft

Team,

Thanks for the quick reply. The plugin was actually installed, but not enabled.

Thanks again,
Carey.
