
how to paginate a long article in flippingbook

Posted by Gladiolo - 2011/09/04 04:59

If I have an long article, and flippingbook doesn't paginate it in several pages, my question is: Is there a way I can create a flipping book with several pages out a single long article?

Hello,

Sorry, but currently the extension can't split an article into several pages.

Thank you for your response. Please keep me post if you introduce the feature in the future. I'll buy it then. It is a very nice extension except for that limitation.

Hi,
do you have a new version to create a flipping book with several pages out a single long article?

Hello,

Sorry, but this feature has not available yet.
