ARI Flip Book

Posted by skifbor - 2012/01/07 19:47

_____

Hello!
Sorry, I'm from Russia. It seems difficult to transfer. I can not understand how to configure the module, create the article.
Do, please step by step instructions, preferably with pictures. Or give a link where you can see a sample.

_____

If you specify what articles do you want to show in flip book and provide temporary access to your J! backend by email we can help to configure the module.

Regards,
ARI Soft

_____

Ladies and Gentlemen!
In response to your letter: I want to put a flip beech two articles - Images and Hypertension. To your e-mail I sent data to the temporary access to the administration of the site. Thanks for your help.

_____

Try now please. The module was assigned to incorrect module position (content-top-c we re-assigned content-top-a), published it and create one test article that the book contains 3 pages (it doesn't make sense to show only two pages).

Regards,
ARI Soft
