## Flip book isn't working for some reason

Hi,  
I have the flip book installed with joomfish on joomla 1.5.25.  
It works great here: [http://abrage.co.il/index.php?option=com\\_content&view=article&id=19&Itemid=27](http://abrage.co.il/index.php?option=com_content&view=article&id=19&Itemid=27) (switch languages and see it is working).  
But for some reason, translations are not taken here:  
[http://abrage.co.il/index.php?option=com\\_content&view=article&id=46&Itemid=2](http://abrage.co.il/index.php?option=com_content&view=article&id=46&Itemid=2) (you can see English content, but not Hebrew or Russian).  
Everything is setup the same (content is translated and published for all languages).  
I don't understand why it isn't working... can you please tell me why and how to make it work?  
Thanks,  
Yonatan

Hi,  
Sorry about that.

It is possible to provide a temporary access to your J! backend by email so we can investigate this problem?
