
Fatal error

Posted by Chowi - 2012/05/15 15:44

When I publish plg_content_ariflipbook I get:

Fatal error: Cannot redeclare class JModuleHelper in /home/.../plugins/system/jat3/jat3/core/joomla/modulehelper.php on line 42

and my site doesn't work.

I have to unninstall the plugin to get my site working again.

Using Joomla 2.5.4

Hello,

Could you provide a temporary access to your J! backend and a FTP access by email so we can investigate the problem or send site template by email so we can reproduce the problem on our test server?
