Flip Article not displaying

Posted by dtwaddell - 2012/06/03 23:44

_____

Hi,

Installed Flipbook plugin into 2.5 Joomla!
Enabled the plugin and assigned to a menu item (name=The Trap)
Created a Category (Flipbook1) for content articles
Created one article (The Trap) and assigned to the The Trap menu
Created one article and assigned to the Flipbook1 category
Added {ariflipbook moduleId="10033"} to the The Trap article

Displaying The Trap article does seem to display the flipper. I can see a title ARI FLIP BOOK. But there is no content.

I assume one of the assignments is missing or incorrect, can anybody please help?

I have been through other posts and would echo other comments that the instructions are not at all clear.

Hello,

Send your order number by email please and could you provide a temporary access to your J! backend so we can investigate the problem?

Regards,
ARI Soft

Dear ARI Soft,

Really appreciate your help, it seems to work now! Looks like we can go ahead and play with the settings.
Can you please tell me what I did wrong, or what you did to fix?

regards

David
