
Images not displaying

Posted by walgo - 2012/06/04 12:42

hi !

I have installed the 3 files. First the "System - ARI Extensions" then, the ARI Flip Book' module and the Content - ARI Flip Book

I'm wordking with joomla 2.5.4

I've created an article with

```
{ariflipbook moduleId="115"}{/images/livrebord}
```

with the id of the module, and nothing !

when I open the article "testari" with the menu "livre de bordW>testari

It show me the article with

```
{ariflipbook moduleId="115"}{/images/livrebord}
```

 printed.

I've send a mail with the url and the login/ pass to info....

Merci beaucoup !!

Eric

Hello,

Sorry, but what is `{/images/livrebord}` ? "Content - ARI Flip Book" plugin is used to embed "ARI Flip Book" module into an article. Use the next plugin code for this purpose:

```
{ariflipbook moduleId="115"}{/ariflipbook}
```

The module shows articles in a book view.

Regards,
ARI Soft
