## How to change background style in flipbook

I wanted to know how to change the background color in flipbook for all the pages and if possible for a single page.

How to give equal padding for the text in the flipbook.

If i give padding of 5px then it is taking only for left and right. It's not taking for top and bottom.

Hello,

Could you provide a link to a page where we can see a book on your site?
