Display flip book in modal window

Posted by tanujavyas - 2012/06/19 09:21

_____

Hi,
I have embedded flipbook in ARI sexy lightbox.
When i click on the link it shows flipbook in modal window but it's not flipping the pages.
It shows only the first page and doesn't flip to other pages.

_____

Hello,

Load "ARI Flip Book" module into an article and then load the article into the lightbox.

Regards,
ARI Soft

_____

Thanks for the Quick reply,

I have achieved it using window.open() method,

But when i load ARI Flip-book module in Lightbox(ARI Sexy Lightbox) the pages are not getting flipped. :(
I want it in that way. On a click it should open in a modal window(i.e. Lightbox) and pages should get flipped.

_____

We have described solution in our previous post. Load "ARI Flip Book" module into an article and then load the article into a lightbox. If you use "ARI Sexy Lightbox" lightbox extension (not "ARI Sexy Lightbox Lite"), you can read about it here. See question #4 in Troobleshooting section.

Regards,
ARI Soft
