## Not work with IE7 and IE8 but well with IE9

Posted by pascalprevot - 2012/07/19 12:28

---

Bonjour de France !

I downloaded yesterday and installed ARI Flip Book on a joomla 1.5.20 site. Works perfectly well with Firefox 1.3.01, IE 9, Safari 4 and on my asus android tablet ! great !

But does not work on IE7 and IE8 (next and previous buttons are inactive eventhough they change aspect on mouse hover).

I suspect conflicts or erros in javascript ??

Here is an url where it is installed <http://www.axcent.fr/rs2i>

Any suggestion ? (I cannot impose my clients to adapt their browser :))

Pascal

Download and upgrade the module. It should help.

Regards,  
ARI Soft
