
Flip Book within an article

Posted by ratsima - 2012/09/02 10:28

Simple question (I think!:.).

Can I create a flip-book and install within a Joomla article? I don't want to create the flip-book FROM existing Joomla articles, just place lots of flip-books inside lots of articles without needing menu entries for each. Many thanks...

Hello,

Currently the extension can create a book based on Joomla! articles. We will add ability to specify book pages directly in plugin code in the next version of the extension.

Many thanks for the reply. But I have to assume the answer is no? I cannot PLACE a flip-book within an article just like an image? Not sure if the next upgrade will do that either from your description, can you confirm? Thanks again...

"ARI Flip Book" is a module and can be placed into an article, but what do you mean under "place it like an image"?
