_____

Let's see:
Testing a new website...
I created two articles: prueba1 and prueba2. In prueba 1 I do: {ariflipbook moduleId="90"}{/ariflipbook}. This module have article "prueba2" (just text) in "included articles"
As far as I know module and plugin are activated, module position have ben chosen...

BUT I can not get it and I recive this message "info@ari-soft.com".

What am I doing wrong??

Hello,

Could you provide a link to a page where we can see the problem?
