
Can't get csv file links to work

Posted by syntesys - 2013/10/19 09:54

Hi

I've been unable to set the links in the csv file.

This is my file structure

"File","Title","Link"

"CATALOGO_ETERNAL_PRIMERA_EDICION_INGLES6.jpg","Primera","http://www.gmail.com"

"CATALOGO_ETERNAL_PRIMERA_EDICION_INGLES9.jpg","Segunda","http://www.syntesys.net"

Tried with and without quotes, same window and new window targets.

Keeps navigating the book on click. I have just installed version 1.7.1.

Would you please provide an exact example? Or may be a parameter I have misunderstood?

Thanks

=====

Hello,

Could you send a link to a page where we can see the problem?

Regards,
ARI Soft

<http://eternalspiritbeauty.net/index.php/en/catalogs2/catalogs1raeditioningles>

But the site is on maintenance mode.

I would have to send you a user and password. Email?

OK

I have the site on line

<http://eternalspiritbeauty.net/>

I'm attaching the csv file

<http://www.ari-soft.com/images/fbfiles/files/ariflipbook.txt>

The CSV file doesn't contain the first row with headers. It should be:

"File","Title","Link"
