cannot save category

Hello,
I have a problem with ARi Flipbook: I'm not able to save the articles category.
In an earlier thread I read this might be a conflict with a Nonumber extension. How to solve this?
The flipbook should be on http://lotje.studioih.nl/site/tijdschrift and then click on the magazine cover.
It takes a random category now it seems.
I hope you can help.

Hello,

What Joomla! version do you use?
