arrows visibility
Posted by info@studioih.nl - 2013/12/09 08:05

Hello, I would like to make the arrows next to the flipbook pages permanently visible. I tried to do that with css in a css file of the site, but as I'm showing the flipbook inside a iframe (through JCE Mediabox) that doesn't work.
I also tried to use the JCE Mediabox with the setting "internal link", because then you don't get an i-frame, but when I do that the flipbook sort of falls apart.
So how can I get permanently visible arrows?
Ineke

Hello,

Could you provide a link to a page where we can see the module on your site?

Regards,
ARI Soft

Go to http://lotje.studioih.nl/site/tijdschrift

login:
lotjebouwer
lotjeinaanbouw13

(that's because it under construction)

and then click on the image of the magazine cover.

Thank you!

Add the following CSS rule to "CSS Styles" parameter in module settings:

```
.ari-flip-book .b-arrow DIV
{
 opacity: 1 !important;
 display: block !important;
}
```

Regards,
ARI Soft

Thank you, but there's one problem: the css I add in de CSS styles box doesn't save when I save the module. It goes

back to "0".
This is happening in Joomla 3.2.0 (onloine) and 3.1.5 (local server)
Hope you can solve this?

Download and upgrade the module. It should resolve the problem.
