how to remove filename when using zoho engine

Posted by vee - 2011/11/22 07:00

_____

Is there an api to not display the filename when using zoho engine? Does it support displayfilename field?

{aridoc engine="zoho" width="900" height="650" embed="1"}mydoc{/aridoc}

==

_____

Hello,

Sorry, but Zoho Viewer API doesn't provide this ability. You can find documentation for Zoho Viewer API here.

Regards,
ARI Soft
