
Alignment

Posted by cshillingburg - 2012/01/23 21:51

How do I align the doc viewer. I am looking to align it to the left and add a title?

```
{aridoc engine="google" width="190" height="250" }joomla/images/data/cutsheets/D-100 Specifications.pdf{/aridoc}
```

thx for the help

Hello,

Provide a link to a page where we can see a document on your site and an image where we can see what you want to achieve.

Regards,
ARI Soft

Here is my link
http://cftglobal.com/joomla/products/product-listing/product/1-d-100-pig/category_pathway-12

as you can see - things dont look very organized

here is my code
Engine and Truck Type

DOT Class 5 thru Class 8
7 Liter to 16 Liter Engines
Up to 550 Horse Power

```
{aridoc engine="google" width="190" height="250" }http://cftglobal.com/joomla/images/data/cutsheets/D-100 Specifications.pdf{/aridoc}
```

Would love a clean look where the engine and truck type information and a title to my aridoc "Specification sheets" would be together

thx for your help
Conrad

You can use the next HTML code:

Engine and Truck Type
DOT Class 5 thru Class 8
7 Liter to 16 Liter Engines
Up to 550 Horse Power

{aridoc engine="google" width="190" height="250" }cftglobal.com/joomla/images/data/cutsheets/D-100
Specifications.pdf{/aridoc}
