
Sorry, we are unable to find the document....

Posted by dsmith1955 - 2013/04/24 16:23

This is the line I have in my document

```
{aridoc engine="google" width="600" height="400"}docs/how-to-achieve-success.pptx{/aridoc}
```

The file does exist so what did I do wrong.

<http://daleosmith.com/power-point>

Can you help? Please
Thanks
Dale

Hello,

The link doesn't work. 404 error occurs.

Regards,
ARI Soft

Let me ask you one question. I see that the background do not appear nor do the animations. Is that normal.

Could you explain in more details what background do you mean? Could you provide an image where we can see the problem?

Regards,
ARI Soft

<http://daleosmith.com/powerpoint/>

The first pptx is a christmas presentation.

It should look like the attached. The site does appear this way.

<http://daleosmith.com/powerpoint>

The first pptx is supposed to look like the attached screenshot. Do I need to re-upload the file? <http://www.ari-soft.com/images/fbfiles/images/powerpointscreen.jpg>

Probably Google Docs doesn't support this feature. You can try to save the presentation in format of previous version of PowerPoint.

Regards,
ARI Soft
