
Showing pdf background with opacity 90%?

Posted by XaRz - 2013/05/30 17:35

Hi again,

I'm trying to use the background opacity features of pdf. Is iframe engine able to show a pdf with white background with opacity 90%?

I've tried but always show the document background as plain white.

Regards.

Hello,

It is not possible to change background opacity.

Regards,
ARI Soft
