
Can't get ARI Docs Viewer to work

Posted by BussupARI - 2013/06/04 23:07

I put this code in;

```
{aridoc engine="google" width="600"
```

```
height="300"}http://docs.google.com/spreadsheet/ccc?key=0Ajml90S6PcR1dHVxdnB3bUwzSGZobHFQQmltWUxSdnc&usp=sharing{/aridoc}
```

I have global configuration, default editor set to **Editor none**

When viewing the article, it shows a box with:

```
{aridoc engine="google" width="600"
```

```
height="300"}http://docs.google.com/spreadsheet/ccc?key=0Ajml90S6PcR1dHVxdnB3bUwzSGZobHFQQmltWUxSdnc&usp=sharing{/aridoc}
```

It doesn't show the article.

Using the link in the browser opens the article.

Same happens in Firefox & IE.

What am I missing?

Screen shots are attached. http://www.ari-soft.com/images/fbfiles/files/ari_doc_viewer.doc

Hello,

Check that the plugin is enabled.

BTW, you try to load a HTML page (not PDF, CSV or other document). For this purpose use "iframe" engine. Plugin code will look like:

```
{aridoc engine="iframe" width="600"
```

```
height="800"}http://docs.google.com/spreadsheet/ccc?key=0Ajml90S6PcR1dHVxdnB3bUwzSGZobHFQQmltWUxSdnc&usp=sharing{/aridoc}
```

Regards,
ARI Soft
