## Sorting tables

Posted by alexr1090 - 2013/06/11 14:51

---

I was wondering if it's possible to sort an xls file by column in ARI Docs Viewer. Anyone know? My current settings are {aridoc engine="iframe" width="1000" height="500"}myXLSlink{/aridoc}

Thanks

Hello,

The extension doesn't provide the described ability.

Regards,  
ARI Soft
