ARi Docs adds a / to base url
Posted by gormmo - 2013/11/19 11:35

Hi.

I have a problem where the plugin adds a / to the base url so the path to the document i want to display is wrong..

The url in question is

http://larsensbofhus.dk/brunch

What to do? :-)

Thank you.

Hello,

What plugin code do you use?

Regards,
ARI Soft

Hi..

Thanks for the quick reply.

I use this:

{aridoc engine="google" width="650" height="800"}/images/pdf/brunch.pdf{/aridoc}

Use the following code:

{aridoc engine="google" width="650" height="800"}images/pdf/brunch.pdf{/aridoc}

No luck.

The top one is the one i used - the bottom one is the one from you..

We can't open your link. BTW, the plugin doesn't add / to a path. It can be added by a WYSIWYG editor.

Hi again.

It was a clumsy mistake from my side.. Nothing wrong with your fine plugin :-) Sorry for the inconvinience..

Best regards,
Gorm
