## Download and \"Open in a new window\" function

Posted by vpari - 2014/03/18 15:55

---

I use ARI Docs Viewer in a Joomla website I am creating. I would like to ask:

1. Is it possible to deactivate possibility of download of document shown with ARI Docs?
2. Is it possible to hide, to deactivate function "Open in a new window", which appears in right-top position of box where document is shown?

Thank you very much.

Hello,

Specify what plugin code do you use and send screenshot(s) where we can see what links you want to remove.

Regards,  
ARI Soft

Hello.

I use aridoc engine="google".

I enclose image; the link I want remove - if it is possible - is first icon at right, in top bar, near zoom.

Thank you. <http://www.ari-soft.com/images/fbfiles/images/Printscreen.png>

It is not possible to remove this button because this is added by Google service and it doesn't provide an ability to remove it.

Hi.

How to remove the icon "download" from the boot document pdf, shown in ARI Docs? In the settings of the plugin is disabled, but the icon remains in the document.

Regards.

Hello,

---

Provide a screenshot where we can see what icons you mean.

Regards,  
ARI Soft

Hi.

Possible to remove the "loading"?  
In the plugin settings you select disable boot: Show loading pane - No.  
But in the document icon is displayed.

Site located at present on the local host (the site at the construction stage).

Embed the document on the page:

PDF file located in the root of the site.

Sincerely.

It is not possible to remove these icons because they are shown by PDF viewer and it doesn't provide API methods to hide the icons.
