
Cannot able to view PDF

Posted by peaceandlove - 2014/11/05 06:17

I had embeded aridocs (pdf file) here

<http://laojee.com/jobboard/index.php/for-employer/overseas-employers>

but it wont show.

I had enable your plugin too.

If you see the pdf is already there

<http://laojee.com/jobboard/Overseas-EMPLOYERS.pdf>

WHAT WRONG?

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

This is a problem with a 3rd party extension. It breaks Joomla! API and JResponse::getBody() method returns empty string.

We suppose this problem with a system plugin. You can try to disable plugins one by one to find which causes the problem or install a fresh Joomla! and install extensions which you use one by one.
