
Cannot download Docs Viewer

Posted by stgeorge - 2015/05/21 09:31

From the page:

<http://www.ari-soft.com/Joomla-Components/ARI-Docs-Viewer/Detailed-product-flyer.html>

Before I registered I got this errorYou can't download the file directly. Visit download page, please, that download the file.

So I decided to register and still got the above error.

Where is the download page?

Thanks in anticipation.

Hello,

It can be a problem with a proxy server or cookies. We sent the plugin by email.

Used Opera to attempt the download initially.

Switched browser to Epiphany and the download worked.

So Solved!

Saw the reply after posting.

I thank you for your prompt support admin
