
deprecatedmessages in frontend

Posted by jeanluc.ferre - 2015/08/24 09:17

Hello;
i use aridoc viewer to visualize pdf files in a Joomla site.
I am with Joomla 3.4.3 and php 5.6.6
the version of aridocviewer is 1.3.8
deprecated.....messages appear in frontend on each page when i use aridoc
below the pdf file is showed...
can you indicate me the way to make disappear these messages.
Thank you for your answers and for all in advance
Jean Luc FerrÃ©

Hello,

Upgrade the extension to v. 1.3.9.

Regards,
ARI Soft

hello,
thank you for your answer....
where can i find the v 1.3.9 version of the extension?????....on the site where i downloaded it it was the 1.3.2 version.....
Following this text you will find the details of two lines of the deprecated messages....
Thank you for all....i hope you can give me the link for downloading the 1.3.9 version of the extension....aridoc viewer.....
