Problem with cloudflare

Posted by Bhabhibel - 2016/07/05 15:48
_____

Hello,

i have a problem using aridocs viewer (pdf) with cloudflare.

Without cloudlfare, no problem, working fine.

With cloudflare, only "loading " logo , no pdf.

if someone have a solution . thx

Sorry for my bad english, not my first language.

bye

Bhabhibel

_____

Hello,

Could you provide a link to a page where the problem occurs?

Regards,
ARI Soft

_____

Can be a problem with a 3rd party extension (for example an extension which is used for optimisation of loading CSS and javascript files). Try to set "Show loading pane" parameter to "No" in plugin settings.
