ARI Smart Book Issue
Posted by jambro - 2014/06/15 05:55

Hi.

I'm having troubles with displying books in articles using {arismartbook id="1"}

On the front page all I see is this text, not the book.
Joomla version: 3.3.0

Thank you for your answer.

Nice regards, Rok JambroÅ¡i

Hello,

Check that "System - ARI Smart Book" plugin is installed and enabled. If you want to use the plugin not only in articles, set "Mode" parameter to "Anywhere" in plugin settings.

It seems you haven't install the plugin. It is located in com_arismartbook.zip archive in "addons" folder. You can read about it here.
