
Fatal Error

Posted by hometlcmag - 2014/06/19 17:46

I added my new smart book to my menu, here is the link:

<http://exposureim.com/hometlcmag/magazine>

I am receiving the following error on the page:

Fatal error: Call to a member function getMetaParam() on a non-object in
/home/exposure/public_html/hometlcmag/components/com_arismartbook/views/book/view.html.php on line 42

Please advise!

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

You haven't selected a book in menu items settings which you want to show:
