## Tell me about full screen mode

Posted by WWA - 2014/06/25 17:15

---

All the descriptions say there is a full screen mode in Smart Book, but I don't see in the demo or in the user guide a way for a flipbook to enlarge and fill the entire screen. Am I missing something?

Hello,

Open "ARI Smart Book -> Template" page on component backend, choose a template and see "Book settings -> Fullscreen settings -> Fullscreen enable" parameter.

It is available on demo site:

<http://www.ari-soft.com/images/fbfiles/images/fullscreen.jpg>

Fullscreen works in modern browsers like Google Chrome, FireFox, Opera, IE 11+ and etc.

Regards,  
ARI Soft

Full screen mode does not work in Safari, which is why I could not see the full-screen button. Safari is popular with my audience. Is there any plan to fix this?

This problem with Safari, currently it doesn't support fullscreen API.

Yes, I've done more testing and I see that it works in later versions of Safari. Thanks for the help.
