
Images Lazy Load - Enable-No - --> No pictures

Posted by textbilder - 2014/08/12 14:39

Hi,

when i set 'enable' to no in 'Images Lazy Load', only the frontpage of the book is shown.

All other pages are empty.

When i set 'enable'to Yes, they are shown but it's not nice because of the white pages first , till the picture is loaded.

Question:

What can i change to show all picture whithout Lacy Load?

Thanks for your help and greetings from Munich

Klaus

Hello,

Could you provide a link to a page where we can see the problem?

PS: When "Lazy load" is enabled, loading icon shown be shown when images are loading.

Regards,

ARI Soft

Hi,

the site will be online in a few days.

best regards

Klaus

Could you then provide a link to a page where we can see the problem? It can be a conflict with a 3rd party extension.

Regards,

ARI Soft

What browser do you use? We have checked it in FireFox and images are loaded fine in the book (it seems currently "Lazy load" is enabled).

Hi,

page two of this post shows me an 404 error.

"What browser do you use? We have checked it in FireFox and images are loaded fine in the book (it seems currently "Lazy load" is enabled)."

Yes, "Lazy load" is enabled and i use firefox (31.0)

But i want to disable "Lazy load" because i don't want to see white pages until the pictures are loaded.

Can you help me whith that.

Another Question:

I try to enlarge the fullscreen-book, but it didn't work.

In fullscreen mode i have a lot of white space around the book.

thanks a lot for your help and quick replay. Good service...

Klaus

Hi,

i resolved the problem.

It was a setting in the T3 Framework. It was set to Lazy Load =ON for Images.

I disabled this setting --> and it works fine now.

Set "Styles settings -> Maximum width" parameter to 100% value in template settings (see "Components -> ARI Smart Book -> Templates" page).
