
Image colours displaying incorrectly

Posted by elombard - 2014/11/03 10:33

Hi,

When I load the images into the folder for the book display the colours change. This only happens when I link the image folder to Ari-Smart. If I upload the file to any other Joomla file the colour displays correctly.

Is there a setting that may cause this?

Please see the image attached as well as the link to the page where it is doing this.
<http://r2z.co.za/sisterlilian/ebaby?view=book&bookId=1>

Thank you in advance

Hello,

Could you send PDF file which you use to create the book by email?

Regards,
ARI Soft
