Images for the ALL Categories Page

Posted by ioulia - 2015/01/23 16:11

I wonder if there is a way, or add-on, to make ARI Smart Book -> Categories menu item look nicer? At the moment it is just a list of links to the categories.
Would be great to be able to have some thumbnails of categories that won't appear in ARI Smart Book -> Category menu items, as it happens if the thumbnails are manually added to the category's description.

Hello,

It requires modification of the extension. For example it is possible to add a new field (for example "Short description") to category settings page and value of the field will be shown on "Categories" page.

Regards,
ARI Soft
