
Book Pagination

Posted by mustweb - 2015/02/09 15:52

Hi

I have a little problem with pagination ...

Having a page '0' (hard cover) , the page n°1 of my book is N°2 in component etc

What can I do so that numbering is matching ?

Regards
Eric

Hello,

See the following code in /libraries/arismartbook/tmpl/arismartbook.php file:

Replace it is with the following one:

Dear Team

Very efficient forum ! well done ! ;-)

Modification is done and working (however code is echo (\$pageldx - 1) in my case)

Just 1 little extra question ... is it possible to override a library ?
(to be ok with future updates)

Regards
Eric
