Hi, all

i' m using ARI Smart Book, on Joomla! 2.5.17. at this page at this page

The problem is, the images are displayed twice, although they are only once saved in the folder.

What is the problem?

thnx a lot.

Hello,

It seems "Pages source -> Directories" parameter in book settings is set to images/com\_arismartbook/pdf\_import value instead of images/com\_arismartbook/pdf\_import/36sel\_ZAXAROPOLISINTERNET value.

Regards,  
ARI Soft
