
Button for pdf download

Posted by TerraZ - 2015/03/27 11:03

Hello,
I have just created my first ARI Smart Book.
I also have a pdf file in the download area.
But now how do I get a download button in the frontend?

Best regards

Hello,

Download link will be available on "Category" page (page which shows all books from the selected category).

Hello,

The latest version of the extension is always available in "Member Area" on our site.
