Hello,
now I have a new problem.
I have now created a category and get this failure.

Best regards

Hello,

It seems "Navigation -> Open in lightbox" parameter is set to "ARI Smart Content - Sexy Lightbox" value in a book settings, but "ARI Smart Content" extension is not installed on your site.

If you don't want to open a book into a lightbox, set the parameter to "None" value. If you want to use a free lightbox extension, set the parameter to "Joomla! lightbox" value.

Regards,
ARI Soft

Once again, thank you for the quick response.
I think I'll buy ARI Smart Content.
How do I get a coupon code?

Best Regards
Alexander

You are welcome. Feel free to contact us if have any questions about the extension.

BTW, "ARI Smart Content" contains a lot of add-ons like accordion, tabs, galleries, lightboxes, data tables and many more which can on your current or another site.

If you decide to integrate "ARI Smart Book" with "ARI Smart Content - Sexy Lightbox" plugin, select to install "Sexy Lightbox" application during installation of "ARI Smart Content" and then configure and enable "ARI Smart Content - Integration - Sexy Lightbox" plugin.
