
Fullscreen Mode

Posted by doris4 - 2015/04/02 15:18

Hi

Is it possible to show the book in Fullscreen Mode as first?

I see there no Options in the menu. I used the type book to show the book in the Content.

Greetings

Hello,

It is possible to switch a book to a fullscreen if click a button in toolbar. It is not possible to open a book in fullscreen mode due to security policy of browsers. They are allowed switch to a fullscreen mode only on user's event (user's mouse click and etc.).
